

**DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY**

Interoffice Memo

TO: Michael J. Mazurek, Chief  
Bureau of Engineering and Construction, Water Design Section  
Department of Public Works

FROM: David V. Lykens, Deputy Director */signed/*  
Department of Environmental Protection and Sustainability

DATE: November 28, 2018

SUBJECT: Water Main Replacement, Harford Park and Woodhome Heights  
Stormwater Management Variance  
Back River Watershed  
**EPS Project ID: M180352**  
**Tracking Number: 06-18-2863**

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the installation of the replacement of water mains by cut and cover. The existing cover conditions will be re-established once the water mains are installed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
